The reissue oath/declaration filed with this application is defective (see 37 CFR 1.324 and MPEP § 1414) because of the following: there is no request to correct inventorship of the patent; and there is no statement from the current named inventors agreeing to the change of inventorship.

- (a) Whenever through error a person is named in an issued patent as the inventor, or through error an inventor is not named in an issued patent and such error arose without any deceptive intention on his or her part, the Director, pursuant to 35 U.S.C. 256, may, on application of all the parties and assignees, or on order of a court before which such matter is called in question, issue a certificate naming only the actual inventor or inventors. A petition to correct inventorship of a patent involved in an interference must comply with the requirements of this section and must be accompanied by a motion under § 41.121(a)(2) or § 41.121(a)(3) of this title.
- (b) Any request to correct inventorship of a patent pursuant to paragraph (a) of this section must be accompanied by:
 - (1) Where one or more persons are being added, a statement from each person who is being added as an inventor that the inventorship error occurred without any deceptive intention on his or her part;
 - (2) A statement from the current named inventors who have not submitted a statement under paragraph (b)(1) of this section either agreeing to the change of inventorship or stating that they have no disagreement in regard to the requested change;
 - (3) A statement from all assignees of the parties submitting a statement under paragraphs (b)(1) and (b)(2) of this section agreeing to the change of inventorship in the patent, which statement must comply with the requirements of § 3.73(b) of this chapter; and
 - (4) The fee set forth in § 1.20(b).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(f) he did not himself invent the subject matter sought to be patented.

Claims 1-3 and 7-9 are rejected under 35 U.S.C. 102(f) because the applicant did not invent the claimed subject matter. The subject matter was subject to US patent no. 5343878 to inventors Scarberry, Handke and Sanders. Since claims 1-3 are original and not amended, applicant is now claiming to be the sole inventor of the common subject matter. With respect to claims 7-9, the subject matter is broader than the original claimed invention and therefor appears to fall within the originally claimed invention to Scarberry and Handke.
